EU) Dell Usb

Recovery Software will be granted to you,. click the 'Download' button on the bottom right hand corner of the Dell Usb Repair. dell backup recovery number.. Click here to read the Dell Usb Recovery.Q: MySQL - Conditionally Select I'm trying to select one of two sets of data depending upon the value of a field, but am having some issues. The two tables are: Table 1: table1 id 1 title My

Awesome Site active 1 Table 2: table2 id 1 title My Awesome Site active 0 As you can see the data will be different for both tables so I need to find a way to be able to pick the data based upon the value of the field (active is where the issue lies), and have code like this: SELECT table1.id, table1.title, table1.active FROM table1 WHERE active = 1 OR SELECT table2.id, table2.title,

table2.active FROM table2 WHERE active = 0 However, I can't seem to find an efficient way to do this. Is there a way to do this, or is the only option just get the data as one large table and query out the data you need
