Q: How to get DATETIME format in SQL Server In SQL Server I am getting a value like "2019-05-08T00:00:00-06:00" for a column As there is no display format for Datetime so what can i do for datetime field. select cast((2017-04-02T00:00:00+5) as DATETIME) A: For Date: select cast((2017-04-02T00:00:00+5) as DATE) For Datetime: select cast((2017-04-02T00:00:00+5) as DATETIME) A median-field approach to magnetic resonance imaging contrast enhancement for superparamagnetic iron oxide nanoparticles. Fe(2+)-substituted silica nanoparticles with dextran encapsulated for biomedical applications were synthesized. Their magnetic and relaxometric properties were studied to establish the feasibility of using these agents to enhance magnetic resonance (MR) imaging contrast. The methods used for their synthesis, characterization, and relaxometric measurements are described and are guided by the recently published Smiles model. Two- and three-dimensional (2-D and 3-D) MR images of phantoms containing the contrast agent and containing both phantom and a contrast agent are presented. Signal changes obtained from the spin-echo images of a phantom containing the contrast agent and a phantom containing both phantom and a contrast agent are compared, showing the feasibility of the method.
