Huello is a nice image viewer with a different and interesting feature. Using Huello you can easily view any image as you are looking at the seaside or in the sky, in the clouds or a mountain. You don't need to use any cumbersome program just to look at your images in a different way. The program comes with a lot of different images with beautiful skies and backgrounds that are simply out of this world. The images are no just regular photos but HDR-images or images that have been processed in a special way to make them much brighter or more colorful. Huello Description: Huello is a desktop application for viewing your images in a different way. By just looking at an image you can view it in different ways: as a regular image, as a sky photo, as a landscape photo, as a water photo and so on. In short, Huello can look at your image in so many different ways. You can also easily download more images to use as a background for your image. The images are a lot more beautiful, in some ways, than the ones that are built into your operating system. Huello is completely free.
