Open and edit images in an easy-to-use.My father's life changed dramatically in 1992 when he developed cancer. The disease changed not only

the way he lived and ate, but also his relationships. During the 90s, while fighting cancer, he was separated from his wife and living mostly with his daughter, fathering five children in two years. The toll cancer took on his relationship with his wife was devastating. He blamed himself for the whole situation. And despite the good

healthcare we have today, the cancer therapy options available at that time were non-existent. That was before the medical advances of the last few decades. With a greater understanding of cancer, both of my parents became very excited about their options and prognosis. After five years of treatment, my

father died at the age of 37. Up until that point, I'd only learned about terminal cancer through books like The Death of Cancer, Stories of Hope in Dark Times and The Cancerous State by Dr. Elisabeth Eaves and Dr. David H. Kirsch. Seeing the stress my parents went through and how their relationship changed during that

time, I was very interested in this topic. My first attempt to write about this was the story of two terminally ill couples who fought and divorced and reconciled their relationship during that time. It was in progress for three years before I decided to pull it out. Now it still needs a lot of polishing, but it's done. I wanted to update

it from the perspective of a daughter instead of a romantic interest, and I decided to rename the story "What Could 0cc13bf012
